		RECRUIT	Dec 02	

STEP 2: You will then be directed to your Facebook page where you can "Allow" the Fundraise through Facebook application to have access to your Facebook page.

Allowing the application means that Fundraise with Facebook will post a thermometer on your Facebook page with the event logo and your two buttons "Support Me" and "Join Me". Your Facebook friends can click those buttons to either donate to you or register for the event.

The thermometer updates your total pledges collected and fundraising goal in real-time with your Participant Center. It will also update your status when you receive a donation and reach your goal.
